

WEBVTT

1

00:00:17.190 --> 00:00:17.840

Richard Hoehn: Hello!

2

00:00:19.770 --> 00:00:20.640

Hector Rogel Jr.: Hey! Richard.

3

00:00:22.120 --> 00:00:23.090

Richard Hoehn: Hey! Hector

4

00:00:31.260 --> 00:00:32.510

Hector Rogel Jr.: Did you have a good break?

5

00:00:36.980 --> 00:00:37.800

Richard Hoehn: All right.

6

00:00:40.680 --> 00:00:42.049

Hector Rogel Jr.: Did you have a good break?

7

00:00:42.600 --> 00:00:45.670

Richard Hoehn: Yeah, yeah. I mean, that's that's working a lot.

8

00:00:46.090 --> 00:00:47.260

Richard Hoehn: Nothing.

9

00:00:48.470 --> 00:00:49.400

Richard Hoehn: Yeah.

10

00:00:50.740 --> 00:00:53.620

Richard Hoehn: Well, let me get this thing going here.

11

00:01:18.430 --> 00:01:23.900

Richard Hoehn: Yeah. So how are you doing are you getting close to graduating, or he's still got some time

12

00:01:24.070 --> 00:01:26.960

Hector Rogel Jr.: Still discussing time. I graduate in December.

13

00:01:27.530 --> 00:01:28.710

Richard Hoehn: Oh, okay. Okay.

14

00:01:28.710 --> 00:01:29.140

Hector Rogel Jr.: Yeah.

15

00:01:29.140 --> 00:01:32.840

Richard Hoehn: You have to take summer classes, you think, to get there

16

00:01:34.534 --> 00:01:40.300

Hector Rogel Jr.: What I've been doing. She's taking 4 class, a classes, a semester to graduate in a year and a half

17

00:01:41.270 --> 00:01:45.940

Richard Hoehn: Okay, so busy. Yeah.

18

00:01:46.240 --> 00:01:48.780

Hector Rogel Jr.: Yep, that's the only thing I'm doing now.

19

00:01:49.330 --> 00:01:49.880

Richard Hoehn: Hmm!

20

00:01:51.060 --> 00:01:51.829

Richard Hoehn: You know.

21

00:01:55.080 --> 00:01:55.750

Richard Hoehn: Hmm

22

00:01:57.470 --> 00:01:58.969

Isaiah: Alright! How are y'all doing

23

00:02:00.530 --> 00:02:02.000

Richard Hoehn: Hey? Say, good to see you

24

00:02:03.780 --> 00:02:05.620

Isaiah: Do you have a good time at the beach?

25

00:02:06.480 --> 00:02:13.989

Richard Hoehn: I did. I did. Yeah, was working and just had a lot to do kind of things

26

00:02:14.623 --> 00:02:15.350

Isaiah: I understand.

27

00:02:15.350 --> 00:02:16.380

Richard Hoehn: Be back.

28

00:02:16.600 --> 00:02:19.469

Karson Woods: Oh, is Carson in the library, too? Yes.

29

00:02:20.046 --> 00:02:23.059

Richard Hoehn: Come on. I'm upstairs on the 4th floor

30

00:02:23.362 --> 00:02:24.569

Karson Woods: On the second floor

31

00:02:25.970 --> 00:02:26.360

Richard Hoehn: Hmm,

32

00:02:32.880 --> 00:02:42.679

Richard Hoehn: so 1st off, I feel I am. I'm pretty far behind and I apologize i've, I had some work stuff come up, which is not really any excuse but

33

00:02:44.650 --> 00:02:55.369

Richard Hoehn: I worked some on it yesterday. Kind of got that thing to work. I don't know if you guys saw kind of figuring out how to get these data files to load and all that. And then I just put them into the data folder

34

00:02:55.690 --> 00:02:56.590

Isaiah: Right.

35

00:02:56.720 --> 00:03:01.899

Richard Hoehn: Get in depth, but I haven't really jumped onto all my

stuff

36

00:03:02.140 --> 00:03:08.379

Richard Hoehn: quite yet. I plan on doing it either later on this evening or then, you know, 1st thing tomorrow kind of thing.

37

00:03:08.740 --> 00:03:10.050

Richard Hoehn: you know. So

38

00:03:11.550 --> 00:03:16.969

Isaiah: Yeah, I haven't been able to do much, either, cause I decided that it was going to be a good idea to go mountain biking

39

00:03:17.880 --> 00:03:18.700

Karson Woods: Oh!

40

00:03:18.700 --> 00:03:20.350

Isaiah: And I can't type very well

41

00:03:20.870 --> 00:03:21.930

Richard Hoehn: -Oh! -Oh.

42

00:03:21.930 --> 00:03:22.620

Karson Woods: Can.

43

00:03:23.281 --> 00:03:28.059

Isaiah: I should be able to get my data bias stuff fixed by tonight, though.

44

00:03:28.380 --> 00:03:29.640

Isaiah: That's what I'm shooting for.

45

00:03:29.640 --> 00:03:33.540

Richard Hoehn: Okay, do you break something, or is it just twisted real bad?

46

00:03:33.730 --> 00:03:37.640

Isaiah: Yeah, I broke one of my metacarpals like right through here by my pinky

47

00:03:39.180 --> 00:03:42.120

Richard Hoehn: Oh, so! And it's your right hand, too, I guess.

48

00:03:42.920 --> 00:03:44.060

Richard Hoehn: Hmm.

49

00:03:44.060 --> 00:03:47.370

Isaiah: Thankfully. I'm left handed so it's not as bad as it could be.

50

00:03:47.370 --> 00:03:48.490

Richard Hoehn: Okay? Bye.

51

00:03:48.490 --> 00:03:49.040

Isaiah: It's

52

00:03:49.540 --> 00:03:50.000

Richard Hoehn: Hmm.

53

00:03:51.280 --> 00:03:53.250

Isaiah: Not a great time to do it, for sure.

54

00:03:53.860 --> 00:03:54.650

Richard Hoehn: Yeah.

55

00:03:55.740 --> 00:04:01.230

Richard Hoehn: Well, oh, you know.

56

00:04:02.350 --> 00:04:08.169

Richard Hoehn: just are you a downhill mountain biker, or how? How did you do it like you know what

57

00:04:08.840 --> 00:04:12.549

Isaiah: It's really kind of embarrassing. I'm new to it. So

58

00:04:13.340 --> 00:04:18.100

Isaiah: It was just going over one of those, you know, like those little wooden bridges that they have over some areas

59

00:04:18.730 --> 00:04:22.860

Isaiah: I just didn't hit that transition exactly right. My front wheel went sideways.

60

00:04:23.360 --> 00:04:27.139

Isaiah: and I just I tried to catch myself, and that was apparently not a good idea

61

00:04:27.605 --> 00:04:29.780

Richard Hoehn: Well, hmm!

62

00:04:30.990 --> 00:04:33.040

Richard Hoehn: Well, feel for you. Sorry

63

00:04:33.269 --> 00:04:35.790

Isaiah: It was a lot of fun. I'm gonna do it again.

64

00:04:35.940 --> 00:04:38.980

Richard Hoehn: Hmm, hmm.

65

00:04:39.470 --> 00:04:40.490

Isaiah: Not breaking.

66

00:04:41.160 --> 00:04:41.800

Richard Hoehn: Yeah.

67

00:04:45.820 --> 00:04:51.259

Richard Hoehn: yeah, so so that's my update. I, I think I know what I need to do.

68

00:04:52.140 --> 00:04:56.129

Richard Hoehn: just need to kind of work on it some, and then also

69

00:04:56.890 --> 00:05:00.669

Richard Hoehn: around on the word document as well. Kind of thing. Just get that done

70

00:05:01.022 --> 00:05:02.079

Karson Woods: See it on.

71

00:05:02.790 --> 00:05:03.490

Isaiah: Okay.

72

00:05:05.460 --> 00:05:10.669

Isaiah: yeah. Sounds good. I'll work on getting the word, Doc, and everything, at least for my sections cleaned up tonight.

73

00:05:11.630 --> 00:05:18.650

Karson Woods: Hmm, yeah, I should have my algorithmic bias done tonight, and then I'll work on the word Doc tomorrow

74

00:05:21.190 --> 00:05:23.504

Hector Rogel Jr.: I've started on your word document

75

00:05:25.730 --> 00:05:26.500

Richard Hoehn: Okay.

76

00:05:29.640 --> 00:05:33.870

Richard Hoehn: You know, it's 1 of those. It's you know, the the myth.

77

00:05:34.000 --> 00:05:41.669

Richard Hoehn: you know. The spring break didn't really help me at all, like, I kind of just checked out. And now it's really hard to ramp up. And

78

00:05:41.970 --> 00:05:47.069

Richard Hoehn: and I had the midterm and stats. And this it just, you know, data

79

00:05:47.370 --> 00:05:48.040

Isaiah: Doesn't stop.

80

00:05:48.040 --> 00:05:51.650

Richard Hoehn: Data seminar topic or so, and just like, Ugh!

81

00:05:51.780 --> 00:05:57.720

Richard Hoehn: I think I'm kind of kind of a little bit over it here semester. So

82

00:05:57.970 --> 00:05:59.840

Isaiah: The good news is, we don't have that much left

83

00:06:00.170 --> 00:06:02.010

Richard Hoehn: - I mean

84

00:06:02.010 --> 00:06:02.569

Karson Woods: But no.

85

00:06:02.570 --> 00:06:03.130

Richard Hoehn: Right.

86

00:06:04.020 --> 00:06:10.020

Richard Hoehn: I mean, we have only a month and a half of school left right? Because it's middle of March.

87

00:06:10.310 --> 00:06:11.000

Isaiah: Right.

88

00:06:11.000 --> 00:06:16.389

Richard Hoehn: And you know it's gonna be kind of done by beginning of May. Right? So

89

00:06:16.390 --> 00:06:17.070

Karson Woods: Yeah.

90

00:06:17.630 --> 00:06:23.599

Richard Hoehn: Oh, yeah, we just have to pull ourselves together. Get it done, or that's what I'm telling myself.

91

00:06:24.176 --> 00:06:24.930

Hector Rogel Jr.: Thank you.

92

00:06:26.430 --> 00:06:27.430

Richard Hoehn: Oh,

93

00:06:31.660 --> 00:06:38.150

Richard Hoehn: I don't know. I guess we need to also, maybe talk to Dr. Wall and again about our grade, so you might have kind of forgot that.

94

00:06:38.370 --> 00:06:43.319

Richard Hoehn: Oh, he gave us good grades on the other stuff. It seems so. So that's good

95

00:06:43.830 --> 00:06:45.460

Isaiah: Was very encouraged by that

96

00:06:48.200 --> 00:06:57.299

Richard Hoehn: yeah, yeah, I think he, just, I think he looked a completely wrong. Repository and yeah, if you do that like there was nothing in it right? So

97

00:06:57.300 --> 00:06:59.240

Isaiah: If you look at the wrong one, then, yeah, we

98

00:06:59.740 --> 00:07:00.740

Richard Hoehn: You know.

99

00:07:01.620 --> 00:07:02.759

Isaiah: We do have issues

100

00:07:03.550 --> 00:07:04.270

Richard Hoehn: No.

101

00:07:04.780 --> 00:07:10.459

Richard Hoehn: And he even sent me an email. So he didn't send it to you guys. You know, when we talked to him on on that.

102

00:07:10.660 --> 00:07:19.289

Richard Hoehn: When we looked at it he still he sent me a screenshot. Say, Hey, look! This is what it looks like on my system, and sure enough. It kind of hit certain parts

103

00:07:19.780 --> 00:07:20.500

Isaiah: Oh, okay.

104

00:07:20.500 --> 00:07:21.410

Richard Hoehn: And

105

00:07:21.750 --> 00:07:34.890

Richard Hoehn: and I'm taking it a little bit like he's kind of admitting that he didn't see the right repository. You know this, let's just say it's not quite, you know our responsibility to know how what the look and feel is on his computer.

106

00:07:35.130 --> 00:07:35.710

Isaiah: Right.

107

00:07:36.110 --> 00:07:40.879

Richard Hoehn: Maybe we'll just reach out. I mean, he might jump into our thing again tomorrow.

108

00:07:41.140 --> 00:07:47.279

Richard Hoehn: I'm sure we have got 10 min or 50 min of discussions, and we can maybe ask him about it again.

109

00:07:47.280 --> 00:07:48.569

Isaiah: Yeah, we can ask it for that.

110

00:07:49.350 --> 00:07:50.370

Isaiah: That might work better

111

00:07:50.370 --> 00:07:51.500

Richard Hoehn: Yeah, yeah.

112

00:07:53.310 --> 00:07:54.250

Richard Hoehn: And

113

00:07:58.270 --> 00:08:09.479

Richard Hoehn: yeah, other than that. I I mean, I did upload the conversation we had last week. So technically, we've already got quite a bit of discussions, and this and that done so.

114

00:08:10.810 --> 00:08:17.949

Richard Hoehn: You know. I'll upload this stuff to and just call it weeks a week, see, I guess. Kind of thing.

115

00:08:18.120 --> 00:08:22.213

Richard Hoehn: Oh, so here.

116

00:08:25.290 --> 00:08:33.170

Richard Hoehn: yeah, other than that. Not much on my side, you know. Like I said, I apologize. I'm not quite as far as I wanted to.

117

00:08:34.940 --> 00:08:35.899

Isaiah: No me, neither

118

00:08:38.389 --> 00:08:42.503

Richard Hoehn: We'll we'll pull it out of a hat here, Dan. Kind of thing

119

00:08:43.799 --> 00:08:44.519

Isaiah: Edit, that

120

00:08:45.460 --> 00:08:46.230

Richard Hoehn: Yeah.

121

00:08:53.440 --> 00:08:54.240

Richard Hoehn: No.

122

00:08:54.240 --> 00:08:55.700

Isaiah: Alright! Well, that sounds good guys.

123

00:08:56.210 --> 00:08:56.950

Karson Woods: Pardon me.

124

00:08:57.510 --> 00:08:59.589

Richard Hoehn: Are we good? In that case, guys, the more

125

00:08:59.590 --> 00:09:00.919

Karson Woods: I think so.

126

00:09:00.920 --> 00:09:07.640

Richard Hoehn: We can always chat over Github, and and I'll be around tomorrow, too, you know, even late, if if we

127

00:09:08.040 --> 00:09:12.690

Richard Hoehn: if we need to. Do you know, quick meeting, you know, late before we submit

128

00:09:14.670 --> 00:09:17.249

Isaiah: We want to say we try to. We want to try to get it submitted by

129

00:09:18.630 --> 00:09:19.630

Richard Hoehn: So

130

00:09:20.310 --> 00:09:36.400

Richard Hoehn: I didn't mind last time where we said by 10 we should really want to try and be done. If that's good with you guys that would work for me. I'm fine. I'm fine with staying up late again and kind of trying to package it all up to

131

00:09:36.786 --> 00:09:40.220

Richard Hoehn: and then we can even chat on zoom if we need to.

132

00:09:41.000 --> 00:09:43.239

Richard Hoehn: Or so tomorrow evening

133

00:09:44.710 --> 00:09:50.959

Richard Hoehn: But I will try and get a lot of my stuff done by 10 or all of it, you know, and then, you know.

134

00:09:52.450 --> 00:09:52.960

Isaiah: Sounds good

135

00:09:52.960 --> 00:10:00.490

Richard Hoehn: Hmm, I think I think it worked fairly well last time. you know that way.

136

00:10:01.060 --> 00:10:02.959

Richard Hoehn: yeah, yeah, I think it worked just fine.

137

00:10:07.190 --> 00:10:07.970

Richard Hoehn: Okay?

138

00:10:10.320 --> 00:10:11.272

Richard Hoehn: And I can.

139

00:10:12.190 --> 00:10:21.550

Richard Hoehn: I can always if I'm, working I can always open up the zoom and just put the link in if anybody wants to jump in or out kind of thing can do that, too.

140

00:10:22.660 --> 00:10:23.630

Isaiah: Yeah, sounds good.

141

00:10:25.320 --> 00:10:25.735

Richard Hoehn: Okay?

142

00:10:27.760 --> 00:10:34.585

Richard Hoehn: Well, I guess we'll pull that rabbit out of the hat tomorrow. Kind of thing

143

00:10:35.430 --> 00:10:38.889

Richard Hoehn: and then I guess Thursday's class right kind of thing. So yeah.

144

00:10:39.130 --> 00:10:39.790

Isaiah: Right.

145

00:10:40.100 --> 00:10:40.960

Richard Hoehn: Alright.

146

00:10:42.280 --> 00:10:43.000

Richard Hoehn: Oh,

147

00:10:44.940 --> 00:10:57.273

Richard Hoehn: Let's focus on just the this, the deliverables and then the Powerpoint stuff we can kind of mess around with. Maybe on

Thursday, if that's okay.

148

00:10:57.850 --> 00:10:58.580

Karson Woods: Cool.

149

00:11:00.320 --> 00:11:01.320

Richard Hoehn: All right.

150

00:11:01.610 --> 00:11:05.719

Richard Hoehn: Well, I'll upload our transcripts and all that, once we're done here.

151

00:11:06.580 --> 00:11:09.700

Richard Hoehn: and I'm sure we'll chat tomorrow sometime.

152

00:11:10.290 --> 00:11:10.890

Karson Woods: Yep.

153

00:11:11.800 --> 00:11:12.579

Isaiah: Right. Thank y'all

154

00:11:12.810 --> 00:11:14.090

Richard Hoehn: Okay, bye, guys.

155

00:11:14.090 --> 00:11:14.880

Hector Rogel Jr.: Alright, bye.

156

00:11:15.230 --> 00:11:16.310

Richard Hoehn: Bye, bye.
